

Serving all of Lee County Area and the world.
Fort Myers, Florida

5 Minute Instant Setup

Our system creates new web hosting accounts automatically. Your new web hosting account will be created within 5 minute of placing an order and making a payment. You will then receive your account activation email along with account login details so that you can start uploading and managing your new account. However, we do restrict automated account creation from high-risk countries. For those countries, account activation will be reviewed within 24 hours (this procedure takes place to prevent fraudulent transactions from occurring).

UNCONDITIONAL 30 Day Money Back Guarantee

Should you decide to cancel your hosting account within 30 days of ordering your account, you will receive a FULL refund. This unconditional policy applies to all hosting plans. We will refund your money and cancel your account for any reason.

100% Uptime Guarantee

We guarantee that your website will be up all through the year! However, if your website uptime should be lower than 89.9%, we will give you a full refund of your hosting charges for that particular effected month. Please see your Acceptable Use Policy (AUP) for additional details.

100% Total Satisfaction Guaranteed!

We guarantee that you will NEVER find any other hosting company that offers the same premium services for the same competitive prices. You might find many "cheap" hosting companies on the net, but can you trust them, can you talk to someone live, or can you even reach them? Can you afford to trust your online business with them? We host more companies, organizations, governmental and individual sites than anyone else! With so many people trusting their sites with us, what makes you hesitate? Join us NOW! Start by choosing the hosting solutions that's right for you!
